Total Non-Group Medical Enrollment: Current Rolling Quarter*

- "Active" is defined as the number of members currently enrolled based on when their coverage started (coverage effective date), including those who have been retro- or prospectively-enrolled. For example, a member who enrolls in March for a policy starting April 1 will appear in the April active count.
- "Termed" is defined as the number of members who have left coverage based on when their coverage started (coverage effective date), including those who have been retro- or prospectively-termed. For example, a member enrolled in a policy with a March 1 coverage effective date who then terminates coverage in July will appear in the March termed count.
- The enrollment line shows the cumulative number of enrolled members, by coverage effective date, as of the date of this report.

Total Non-Group Medical Enrollment: Year to Date

- 170,563 individuals are actively enrolled in non-group medical coverage. This represents a 2% increase from the previous month
 - These members are enrolled in Unsubsidized QHP (37,882), Subsidized QHP with APTC (7,380), and ConnectorCare (125,301) medical plans
- 16,631 individuals have left non-group medical coverage this year
 - These members were enrolled in Unsubsidized QHP (8,121), Subsidized QHP with APTC (905) and ConnectorCare (7,605) medical plans

Note: This report is based on the latest available membership information as it appears in the CCA Financial Management System (FMS). Normal member activity (e.g., retroactive enrollment, account changes) may result in adjustments to figures reported in prior versions of the Board Report Metrics.
